

Frank Archuleta

I have a B.S from Colorado State University in Natural Resource Management and Conservation Biology. I am currently Acting Liaison for the National Capital Region Exotic Plant Management Team (NCR EPMT). My duties include; administration, community outreach, herbicide safety training, and coordinating exotic plant treatments and best management practices with our partner parks. The NCR EPMT serves 14 parks in the National Capital Region and surrounding areas. Previously I worked for The U.S. Fish and Wildlife Service on the Lower Rio Grande Complex doing habitat restoration, and before that I worked for the U.S. Forest Service as a wild land firefighter in the Western U.S.
